

**United States Renal Data System (USRDS)
International Data Collection Form**

This form is designed to solicit information on the population of end-stage renal disease (ESRD) patients in your country. The information you provide will be returned to you along with comparable information from other countries participating in the voluntary effort.

If data are not available for all years, please include data for the most recent year(s). If you cannot provide data in the age categories listed, please provide the total numbers. The format has been created to more clearly separate incident and prevalent population counts from transplant counts.

A.1) Population: the population of your country for the years that ESRD data will be provided.

A.1) General population of the country/region										
Population: the population of your country for the years indicated or most recently available										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

B.1) Incidence: the count of patients who start any form of renal replacement therapy during the year.

B.1) Incidence: Total ESRD (at day 1)										
Incidence: the count of patients who start any form of renal replacement therapy <u>during the year</u> . These are first-time patients only; patients who start dialysis after a failed transplant, for example, should not be included.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

B.2) The subset of total incident patients whose failure is due to diabetic nephropathy.

B.2) Incidence: Diabetics (at day 1)										
Indicate the subset of incident patients who started any form of renal replacement therapy during the year and their ESRD was <u>due to diabetic nephropathy</u> . Subtracting B2 from B1 should equal the total number of incident patients for all non-diabetic nephropathy causes.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

USRDS INTERNATIONAL DATA COLLECTION FORM

C.) Prevalence: the point prevalent count of patients at the end of the calendar year (December 31).

C.1) Prevalence: Total number of ESRD patients (all treatment categories) at the end of the year (December 31)										
Please include <u>all</u> patients receiving either dialysis or living with a kidney transplant for ESRD treatment at end of year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

C.2) Prevalence: Total Number of ESRD patients with a functioning kidney transplant at the end of the year (December 31)										
Please include <u>all</u> patients living with a functioning kidney transplant at end of the year for treatment of ESRD.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

C.3) Prevalence: Total number of ESRD patients on dialysis at the end of the year (December 31)										
Please list <u>all</u> patients receiving dialysis at end of year for ESRD therapy. C.2 and C.3 should sum to C.1 unless there are lost-to-follow-up patients. If there are lost-to-follow-up patients, please note this fact and whether these patients are captured in C.2.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

C.4) Prevalence: Total number of ESRD patients on in-center hemodialysis at the end of the year (December 31)										
Please include <u>all</u> patients treated with in-center hemodialysis for ESRD therapy at the end of each year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

C.5) Prevalence: Total number of ESRD patients on CAPD, APD, or IPD at the end of the year (December 31)										
Please include <u>all</u> patients treated with continuous ambulatory peritoneal dialysis, automated peritoneal dialysis, or intermittent peritoneal dialysis for ESRD therapy at the end of each year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

USRDS INTERNATIONAL DATA COLLECTION FORM

C.6) Prevalence: Total number of ESRD patients on home hemodialysis at the end of the year (December 31)										
Please indicate <u>all</u> patients treated with home hemodialysis at the end of each year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

D) **Kidney transplant activity:** This is meant to be a count of transplants, not transplanted patients. If a patient receives multiple transplants during the year, all should be counted. If you report only transplanted patients, please provide these numbers and note that they refer to patients. D1 (deceased donor [cadaveric] transplants), D2 (living donor transplants), and D3 (unknown donor type) should sum to the total number of transplants.

D.1) Transplant: Total number of deceased donor (cadaveric) transplants during the year										
Please indicate the total number of deceased donor (cadaveric) kidney transplantations performed during the year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

D.2) Transplant: Total number of living donor transplants during the year										
Please indicate the total number of living donor kidney transplantations performed during the year.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013									

D.3) Transplant: Total number of transplants with unknown type of graft										
Indicate the total number of kidney transplantations performed during the year in which it was <u>unknown</u> whether the transplant was a deceased (cadaveric) or living donor kidney transplant.										
Country/Region	Year	Number by Sex		Number of People by Age Category						Total
		Female	Male	0-19	20-44	45-64	65-74	75+	Unknown	
	2009									
	2010									
	2011									
	2012									
	2013
